403-4	Worker participation, consultation and communication on occupational health and safety Note: The mission of Employee Health and Safety at Kellogg is to deliver value through a culture that embraces the belief that zero injuries are possible, while minimizing our impact on the planet and communities where we live, work and source. Creating a strong safety culture and capabilities within every individual at Kellogg is one of our K Values. All Plant Leadership Team members actively coach teams in EHS principles. Everyone is engaged and accountable to eliminate losses. Employees establish and execute standard work to restore and maintain conditions; and we do not tolerate unsafe behavior, conditions and actions that harm people or the environment. Employees are continuously improving their skills to sustain the health of our systems and the safety absolutes that drive accountability to our standards. Safety is ignited through 100% workforce engagement.	Living Our Founder's Values

412-1	 Operations that have been subject to human rights reviews or impact assessments In 2020 we partnered with external consulting group ELELVATE to review our internal manufacturing operations and TI supplier sites to determine an updated set of salient human rights risks. From this review we focused on seven human rights risks that were most material to our business and where we could make the greatest impact. These can be found in our Human Rights Policy. Through customer and internal initiation we also completed 5 internal SMETA 4-Pillar audits of high-risk facilities. No critical NCs were found and all minor NCs have been resolved. Within our supply chain we also piloted, with ELEVATE, a human rights assessment program focused on worker voice, child labor, and audit. These assessments covered 26 high risk supplier sites. We are currently working back with ELEVATE to finalize our remediation and mitigation plans for these sites. 	Living Our Founder's Values	SDG: 1, 3, 5, 11, 12 UNGC: 1, 2	Human Rights Policy
